PROFESSIONAL SUMMARY

Full Stack Developer with almost 4 years of professional experience specializing in React, Redux, TypeScript, and React Native on the frontend, and Node.js, NestJS, Fastify, .NET, and PostgreSQL on the backend. Currently serving as Developer Lead at Hill & Foster, delivering high-performance web and mobile applications for clients across e-commerce, SaaS, and service industries. **Extensive experience in Shopify theme development, custom integrations, and e-commerce optimization.** Proficient in modern state management and deployment pipelines using AWS and Bitbucket. A constant learner with strong communication skills and proven ability to mentor junior developers while driving project success.

TECHNICAL SKILLS

Frontend: React, React Native, Redux, TypeScript, Next.js, Vue.js, Tailwind CSS, Ant Design, Chakra UI

Backend: Node.js, Express.js, NestJS, Fastify, GraphQL, REST API, .NET Framework

E-commerce: Shopify (Liquid, Theme Development, Storefront API, Custom Apps), Stripe

CRM & Marketing: HubSpot (CMS, APIs, CRM Integration)

Databases: PostgreSQL, MongoDB

DevOps & Tools: AWS, Bitbucket, Git, CI/CD Pipelines, Vercel, Railway

EDUCATION

Bachelor of Science in Information Technology

AMA Computer College — Davao City | 2019 - 2022 | **Dean's Lister**

PROFESSIONAL EXPERIENCE

Developer Lead

Hill & Foster — Calgary AB, Canada (Full-time, Remote) | June 2022 - Present

- Lead full-stack development for multiple client projects using React, Redux, TypeScript, Node.js, NestJS, Fastify, and .NET, ensuring scalable and maintainable codebases.
- **Shopify E-commerce Development:**
 - Built **Tryfum (Füm)**, a health-focused e-commerce platform, implementing custom Shopify theme development, optimized checkout flows, and rebranded storefront with modern UI/UX.
 - Developed **Organic Traditions** e-commerce website using Shopify, creating a clean, modern design for premium organic food products.
 - Built **Brooklyn Biltong** Shopify store for a premium artisanal meat snack brand with custom product pages and enhanced UX.
 - Created reusable Liquid components, custom sections, and theme customizations across multiple Shopify storefronts.
- Developed **KPI**, a Canadian job board platform using React, TypeScript, Node.js, Fastify, PostgreSQL, and Stripe for payment integration, featuring AI-powered resume building and background check services.
- Built **Yard Dawgs**, a lawn care franchise management system with HubSpot CRM integration for lead management and customer tracking.
- Built **Foragesoft**, a full-stack application using React for the frontend and .NET Framework for the backend.

- Configured and maintained deployment pipelines using AWS (S3, CloudFront, Lambda) and Bitbucket CI/CD for automated testing and deployment.
- Spearheaded performance optimizations achieving up to 30% reduction in page load times through code splitting, lazy loading, and caching strategies.
- Mentored junior developers through code reviews, pair programming sessions, and establishing best practices for React and TypeScript development.

Frontend Developer

Fire Safety Inspection Certification System — Bureau of Fire Protection, Davao City | Feb 2022 - May 2022

- Developed the front-end using React and TypeScript for the Certificate System, enabling seamless application processing for both applicants and Bureau of Fire Protection employees.
- Collaborated with UX/UI designers to implement responsive, accessible interfaces following WCAG guidelines.
- Integrated REST API endpoints ensuring real-time data synchronization and efficient state management with Redux.
- Conducted cross-browser testing and optimized frontend performance for improved page responsiveness.

Mobile Developer

FWD Springboard Student Challenge — Davao City | Sep 2021 - Nov 2021

- **Achieved Top 3 finish at the National Level** in a competitive tech innovation challenge.
- Designed and developed a React Native mobile application enabling users to access and manage insurance services with real-time policy updates.
- Implemented user authentication, intuitive navigation, and responsive UI components following mobile-first design principles.
